

## HALLMARKS OF STUDENT SUCCESS

## HOW TO GET THERE

## IMPERATIVES FOR STUDENT SUCCESS

*What if we create a welcoming, equitable, and supportive learning environment for all students?*

## Holistic Well-Being and Academic Support

Students engage with a robust network of professional and peer educators who support them through strong academic advising, clear curriculum maps, and degree navigation technology along their entire academic journey.

The value of Rutgers–New Brunswick’s diversity is clearly demonstrated and drives best practices in inclusive pedagogy.

Student well-being is recognized as fundamental to student success. Concepts and principles are incorporated into all aspects of the university.

- ▶ ScarletWell

## Digital Transformation

The institution’s technological ecosystem improves student experience, learning, and success.

A student success data dashboard tracks retention, on-time completion, and graduation rates of selected student cohorts including transfer, Garden State Guarantee, Scarlet Guarantee, and first-generation students.

Students are prepared to succeed in a technologically advanced world.

*What if we prioritize on-time graduation with minimal debt for all students?*

## Accessible Academic Community

A high four-year graduation rate and commitment to providing needs-based financial aid to minimize student debt.

Seamless transfer policies establish Rutgers–New Brunswick as an excellent destination for transfers from two- and four-year colleges.

A coordinated student experience for enrollment, academic and student life, and graduation.

A culture in which all students feel informed, have access to resources, and navigate degree programs efficiently.

- ▶ Office of Student Retention and Success
- ▶ Develop, streamline, and coordinate academic pathways for non-traditional students
- ▶ Transfer Policy and Accessible Transfer Portal
- ▶ Graduate Education and Student Support Initiative

## Cross-Campus Collaboration

Collaborations promote student learning and student support.

New interdisciplinary degrees and online offerings increase student access.

## Inclusive and Diverse Community

Student community service and civic engagement are incentivized.

*What if we expand high-impact learning opportunities (such as internships, research, and more) to best prepare students for success in their future endeavors and as engaged citizens?*

## Proactive Career and Advanced Degree Preparation

Student experiences are tailored to support career pathways and discovery. The university transitions incoming students through the lens of an interest area, connects them with experiences valued by employers, and helps them land their first-choice post-graduation destination.

All undergraduate students have opportunities to participate in high-impact experiential education opportunities connected with their academic and career goals and their future success as an engaged citizen.

- ▶ Discovery Advantage recommendations: High-Impact Practices (HIPs)/High-Impact Experiential Learning opportunities (HIELs)
- ▶ Rutgers Scarlet Summer Service Initiative (RSSI)
- ▶ On-Campus Work experience Network (OWN): Enhance the on-campus work experience for students
